

Product development straining your resources?

Davies can get your product ready for market.

Davies has a team of experienced product development and regulatory compliance specialists ready to handle your county-wide filing needs, expand your programs into new states, or coordinate your annual rate filings.

Why work with Davies?

Here's what makes us different:

Expert support for all your personal, commercial, life, health, and workers' compensation product needs.

Our services are customized to fit your project whether you wish to grow existing programs, revise product offerings, implement a new form, or get a report on the competitive landscape.

Our vast knowledge of regulatory requirements covers all 50 states and includes expertise in SERFF and Florida IRFS systems.

If you require insight on what to file, we know the state statutes inside and out, and present each of the relevant key points in a clear and concise manner.

Along with in-depth product knowledge, our experience includes developing proprietary or bureau-based programs, including forms and rate and rule manuals.

Davies offers a team of actuaries ready to accurately price products for new and existing insurance carriers.
